ACTIVITY AT THE CANNERY

SAN LEANDRO CANNERS FIND IT HARD TO SECURE LABOR.

SAN LEANDRO, May 30.—The local cannery is now the scene of great activity. Already a large number of people are at work on the cherries and by next Tuesday the season will be well under way. At that time more than fifty people will be working and as the season advances a great many more will be required.

The twenty-eight cottages on the lot adjoining the cannery, which have just been completed will soon be occupied. These cottages are built in a most substantial manner with nearly every convenience of much larger dwellings and will cost the employees who occupy them but \$1.50 a month, which amount just covers the cost of water and gas, as each house is supplied with water and gas and stove and fixtures. The cottages are arranged in two rows and within the next year nearly fifty more of the same size will be constructed on the property.

Considerable trouble is being experienced by the company in securing labor. A canvass of the entire district resulted in obtaining but about three hundred women and children who will work this season. Some five hundred will be required during the busiest part of the season.

The cost of the twenty-eight new cottages erected by the company for the convenience of their employees amounted to three and four thousand dollars.

A FISH STORY.

Judge Quinn has just returned from Half Moon Bay and brings with him a great fish story. He says that he and a friend after being out in their boat for an hour succeeded in catching enough perch to nearly swamp the boat. In fact they were compelled to throw out nearly half the catch before it was possible to land.

SLEEPING GOOSEBERRIES.

A number of boxes of gooseberries are being shipped from San Leandro. Some twelve boxes were shipped to San Francisco the first of the week and the price received was very satisfactory. Others will follow before the season is over.

FOREMAN OF QUARRY.

Jesse Bloodworth of San Leandro has recently secured a position of foreman of Warren's stone quarry in San Francisco. He has taken up his residence across the bay for the present.

UNCLAIMED LETTERS.

Following is the list of unclaimed letters in the local Postoffice: Alex Borman, Miss Kate O'Connor, William J. Davis, Frank Sprink, Miss Silvia.

OAKLAND WIFE IS DIVORCED.

HUSBAND SAYS THERE WAS TOO MUCH CHRISTIAN SCIENCE IN FAMILY.

SPOKANE, Wash., May 29.—"We had Christian Science for breakfast, dinner and supper, and my wife would read Mrs. Eddy's book until late at night. When I tried to sleep she would wake me up and tell me of a new passage she had discovered. She brought others home and they talked that stuff until I told them to— with you and your Christian Science."

Such was in part the testimony of James N. Sare, who secured a divorce from Mary Sare today. The wife lives in Oakland. One of Sare's witnesses said that when Sare was sick he gave his wife money to buy pills with. She made pills out of soft bread for him and kept the pills in a box. Sare said that he was under the care of Mrs. Sare and another healer, and they treated him without medicines for three weeks, when he died. Sare said that for five years his wife talked science to him. He moved to Seattle from Indiana in the hope that there were no scientists there, but his wife followed him and he was treated. He was made to Spokane, and the torture continued. After Sare went East last summer his wife sold their property here and went to Oakland, and refused to return because he would not join her church.

ROOM OF BOAT BARS SEALED.

THE STEAMER NEWARK HAS NO PLACE FOR SELLING DRINKS.

Morris M. Meyerfield, president of the Orpheum Yacht Club, has made an unpleasant discovery. He is the owner of the bar privilege on the Southern Pacific ferryboats, and he has just found out that the Newark, which is to be placed on the Broad Gange run in a few days, has no place for a bar. The Newark has recently been reconstructed and is now the finest boat on the bay. Commanding quarters for a restaurant, but somehow there is no place that can be used as a dispensary of liquors.

Mr. Meyerfield now realizes that there are more ways than one of skinning a cat. He is convinced that the General Manager Kruttschnitt proposes to abolish bars on the ferryboats by indirect means. He will build them out of the boats. Each boat that is reconstructed hereafter will have no place for a bar. That is what Mr. Meyerfield suspects, and what is probably the fact.

General Manager Kruttschnitt has long been in favor of abolishing the bar privilege on the boats. He has already succeeded in abolishing the bars at nearly all the eating stations on the Southern Pacific system, and he has just secured an order abolishing the bars on the boats.

But the wholesale liquor dealers made a fight for their protection, and Charles M. Hays, the president of the union, held up the order. When E. H. Harriman came in, he rescinded the order, but it now looks as if he did so with the understanding that the bars were to be choked off gradually by Mr. Kruttschnitt. He would take so important a step without consulting his chief, especially as he had been previously overruled in relation to this very matter.

When Mr. Meyerfield complained to Mr. Kruttschnitt about the strange omission in the Newark, the General Manager told him that the place was needed for restaurant purposes. The lessee took the answer as the knell of the bars on the boats.

DANVILLE ROBBERS HAVE GOOD START

The horse which the Danville safe robbers used to aid their escape has been found by the police wandering loose in the Piedmont foothills.

The conclusion drawn by the officers is that the crooks after robbing the Railroad Company's safe at Danville last Sunday of \$50 in gold coin took the horse that the police have found and drove into this city and boarded one of the outgoing trains.

The men had at least seven hours' start of the officers, and there is little hope that they will be apprehended.

The police have not as yet been able to locate the car and harness which was taken at the same time as the horse.

BUNCO WARD IN CLOSE QUARTERS

Police Judge Smith will render a decision Sunday on Judge O'Connell's case and yesterday in the Police Court.

Ward was accused of getting a ring from Jeweler S. Lathrop by fraud. He was at first charged with grand larceny, but could not be held on that charge and the felony indictment was placed against him. This will probably have to be dropped, and the misdemeanor charge will probably be the result.

This is necessitated by the fact that Ward took a ring worth less than \$50.

HIS DEATH WAS AN ACCIDENT

An inquest was held last night by Coroner McMahon over the remains of Michael Sullivan, who died yesterday morning from laudanum poisoning.

The jury decided that deceased died from the effects of an overdose of laudanum taken accidentally.

Sullivan was a tenant and lived with his sister and her husband, J. B. Taylor, at 638 Hopkins street.

CADOGAN IS AGAIN TO THE FRONT.

BERKELEY BOY WINS A PLACE ON THE BERKELEY OVAL.

NEW YORK, May 29.—The tracks at the Berkeley Oval were in record-breaking condition today.

Only the preliminary trials in each of the events were decided, the semi-finals and finals being reserved for tomorrow. There was a bitter fight between Harvard and Yale for supremacy and the experts said that either one of these two universities will win the greatest number of points.

Harvard is the favorite on the showing made by the wearers of the crimson in their dual meet with the Yale men on Saturday last.

Cornell, Princeton, Pennsylvania and California will undoubtedly prove very formidable in some of the events and their winning first or other places will make quite a difference in the scores of Harvard and Yale, so that only a few points may separate them when the finish is reached tomorrow evening.

The springing record will probably be equalled and new records are looked for in the hammer throw, shot-put and pole-vault events.

100 yards, first trial heat—Won by A. W. Schick, Harvard; W. Arnsiein, Yale, second; J. S. Wesley, Pennsylvania, third. Time, 19.1 seconds.

Fourth heat—Won by A. Cadogan, of California; W. A. Lilly, Yale, second. Time, 10 seconds.

Fifth heat—Won by F. R. Moulton, Yale; C. C. McCarthy, Boston College, second. Time, 10.1 seconds.

During the trial in the sixteen-pound hammer-throw at Berkeley Oval today, J. R. Dewitt, of Princeton, broke a world record in the shot, by throwing a throw of 164 feet 10 inches.

E. C. LYON IN COURT.

The Furniture Dealer Soon to Leave Oakland—Sued for Alienating the Affections of Wife.

Something Novel in (un) Civil Procedure.

JUDGE SMITH PUZZLED.

The Facts in this Case Contain a Great Moral.

E. C. Lyon has lived in Oakland twenty-five years (he wore kilts on his arrival) and for the past six years has conducted a Furniture business at 412 Eleventh Street.

In all that time he has never advertised a "fake" sale and has always treated his customers as to gain their entire confidence.

Last week, Tuesday, he advertised that he was going to move to Los Angeles, and that to do so he had to sell his immense line of Furniture and Carpets in thirty days, and that he had marked all his goods in plain figures at a special wholesale cost. As a special inducement he offered to store all goods purchased for six months free of charge, as he has taken a partner in his popular storage, moving and renting business, and is to continue it, with an office in the same store which he now occupies.

Of course his store was at once crowded with customers eager to get furniture at about one-half the regular price.

Among the first to avail themselves of this opportunity were Mr. and Mrs. Robert Jones a newly married couple, residing at 607 Twelfth street. Mr. Jones left the selection of the goods entirely to his wife and, of course, when she saw the ridiculously low prices at which everything was marked she bought her entire outfit at once.

Now came the trouble.

When the elegant velvet and brussels carpets were laid and the iron beds and birdseye maple dresser, together with the fine polished oak dining room and parlor furniture was delivered Mrs. Jones became enraptured with it and now Mr. Jones claims that as she is in love with the furniture her affections are alienated from him.

Hence the suit for damages.

MORAL: If you do not want to get furniture at about half price and at the same time have it the very finest kind (the kind you fall in love with) don't buy it of E. C. Lyon—but if you do—well just call at your earliest convenience.

DEATH IS DUE TO HEART DISEASE.

At the inquest held on the remains of the Rev. E. W. Brown, who died suddenly yesterday noon on the Berkeley ferry, the verdict of death from coronary arteriosclerosis was rendered.

The body was found in the remains were sent to relatives in Palo Alto for burial.

SUNDAY DELIVERY EARLIER AT POSTOFFICE.

One week from Sunday next, a new order will go into effect in the local post office. There will be a change in the hour for the Sunday delivery of mail.

For a number of years that delivery has taken place between 12 o'clock noon and 1 o'clock p. m.

Beginning Sunday, June 8, the delivery will take place from 10 to 11 o'clock.

The change has been made at the request of the letter carriers who, because of the early arrival of the mail, are enabled to get their mail matter ready for use by the public an hour earlier.

ADMITTED TO ROBATE.

The will of the late Ann Jane Bangs was yesterday admitted to probate by Judge Ellisworth.

Public Administrator Hawes has applied to be appointed administrator of the estate of the late Graciosa Duhan, who left property in Los Alamos valued at \$500.

ASKS TO BE APPOINTED.

KIND WORDS FOR METCALF.

CONGRESSMAN IS RESPECTED BY THE LADIES IN WASHINGTON.

Edward J. Livernash, writing in today's "Examiner" on "The California Delegation," says:

Metcalfe, too, has individuality, but of more agreeable type. He sees more of the universe than Loud perceives, and has a gentler, broader view of life. Conservatism is among his main characteristics; but his conservatism does not chill, and is the strong outgrowth of a calm, circumspect nature, not of mental billousness. Men of affairs like him, and he is bound to grow in the favor of persons of discrimination. Already he has won one of the most coveted honors in Washington—a place on the Ways and Means Committee of the House; and already his opinions carry weight in the councils of the public men by whom policies are formed. If Californians stand for the Republican party's scheme of things, Metcalfe should be retained in Congress.

OCEANIC STOCK ON THE DECLINE

SAN FRANCISCO, May 29.—The price of Oceanic Steamship Company's stock has sunk to \$25 per share, and the stockholders are shivering with nervous apprehension lest another assessment be levied. California is greatly in debt and money must be raised to pay interest on the company's bonds. The financial statement submitted at the monthly meeting a few days ago shows that the gross indebtedness now amounts to \$1,011,000.

NO SUCCESSOR YET TO REV. CORRIGAN

ROME, May 29.—The statement published in the Daily Mail of London, May 29th, that at the consistory to be held June 9th, the pope will nominate Archbishop Koane of Dubuque, Iowa, to succeed the late Archbishop Corrigan of New York, is without foundation in fact. It appears now to be extremely improbable that the pope will depart from his customary practice of appointing an Archbishop's successor from among the clergy of the diocese in which the vacancy occurred.

LABORER MEETS WITH AN ACCIDENT

A. Summers, a laborer, met with a peculiar accident yesterday. He was walking along Franklin street and there was a large hole in the soil of his left shoe. Suddenly he stepped on a board and the next minute he was lying in a pool of blood. He was removed to the Receiving Hospital, where a splinter at least three inches long was removed from the bottom of his foot by Steward Sorcher.

DAY OBSERVED IN MANILA

MANILA, May 29.—The military forces observed Decoration Day as a holiday. There were impressive services at the American Cemetery, though the bodies of only a few soldiers are now buried there. The American Club decorated the graves of the civilians.

It was thought inadvisable to declare the day a public holiday.

DODGE CITY, Kas., May 29.—The Arkansas River began falling here this morning and it is believed all danger has passed.

GUILTY OF VAGRANCY.

Andrew Johnson was found guilty in the police court yesterday of vagrancy. Sentence will be imposed Saturday.

Kaiser Never Crowned.

Probably few people out of England regard with more interest the proceedings in regard to the King's coronation than his imperial nephew at Berlin, and all the more so that as Emperor, he is still uncrowned, as was his father and grandfather before him. The reason why is something of a mystery, but the explanation generally accepted is that the original imperial crown of the Emperor of Germany is in the hands of Austria, and that she shows no disposition to allow it to leave Vienna. Mr. Bryce, in his "Holy Roman Empire," writes that it is not a trick of Napoleon, but Bourneville records that Napoleon said on one occasion, "I have not succeeded Louis XIV, but Charlemagne," and adds that in 1804, shortly before he was crowned, he had the imperial insignia of that monarch brought from the Frankish capital and exhibited in Paris with those made for his own coronation. BANKERS IN SESSION AT SAN JOSE.

FINANCIAL PAPERS ARE READ AND REPORTS ARE RECEIVED.

SAN JOSE, May 29.—The California Bankers' Association held its first meeting of the Association at the Hotel Vendome this forenoon. President J. M. Elliott, of the First National Bank of Los Angeles in the chair in his opening address President Elliott referred to the work accomplished during the year and congratulated the members upon the evidence of good judgment exercised by them in the management of their affairs. He again brought to the notice of the members the recommendation made several years ago that the association banks should gradually accustom their depositors to the use of paper money. In his opinion it was not unreasonable to expect that the consolidation or merger of banks would extend from the East to the Pacific Coast.

Frank Miller, the chairman of the executive council, presented his report, showing that numerous cases of fraud had been exposed, that the best efforts of the council had been directed towards accomplishing the object of the revenue tax on bankers' capital and surplus, that the money order system introduced among the members had worked in a satisfactory manner and is believed to be a convenience to the interior banks and that the growth of membership is gratifying, there being but few banks outside the fold.

The Secretary, R. M. Welch, reported a total membership of 207 banks, a net gain of nine during the year. There are 21 banks in the State, leaving 187 outside the association.

Reports from delegates showed the various sections represented to be enjoying a marked degree of prosperity.

L. D. Behrens of Redwood City read a paper advocating the convention on some other day than Memorial Day, and J. D. Ramon of San Jose followed with a memorial resolution in which tribute was paid to the memory of dead soldiers. Adopted by a standing vote.

Frank Miller of Sacramento urged the necessity of encouraging the spirit which inspires and sustains the volunteer service upon which banks and bankers must depend under most of the time of riot when regulars are not available.

The report of the treasurer, G. W. Kitcher, showed a balance on hand of \$2,675.36.

L. G. Fletcher of Watsonville read a paper on the handling of the class of drafts known as "lame ducks." He offered a resolution, which was adopted, authorizing the committee on this matter to submit a remedy to the banks of the State for adoption.

PRESIDENT TO COME WEST.

PREPARING TO MAKE TWO IMPORTANT TRIPS SHORTLY.

WASHINGTON, May 29.—President Roosevelt has undertaken to make two trips through the Western country next fall.

One will be in the Southwest and the other in the Northwest.

These will be made in redemption of promises more or less specific.

By the last of September he will go to Springfield, Illinois, stopping en route at some other points, as yet not determined.

The latter part of October he will go as far in the Southwest as San Antonio.

He has been strongly urged to go on a bear hunt in Mississippi as the guest of Governor of that State and it is possible he will accept the invitation, for he must visit New Orleans, which is near-by, on his trip.

DID NOT WANT THE LITTLE ONES ON STAGE

Charles D. Jump, an electrician, secured a divorce in Judge O'Connell's court today from Mabel Jump on the ground of desertion. The husband testified that his wife put their two children on the stage, which brought such strenuous protests from him that she refused to return to his abode. Mrs. Jump, he says, went to Seattle two years ago, ostensibly to visit relatives. While there the "Brownie" Company came along and she made her children, aged then 6 and 4 years, respectively, members of it. When the husband heard of it he objected and the wife left the children with friends in Portland, going to Seattle, where she is still, where she still lives. The husband now has the children.

There was a packed and pleased auditorium at the Dewey last night at the performance of "The Girl I Left Behind Me." He called place the hero makes a gallant ride for relief under the orders of his General, a previous courier, wearing the request for aid, having been killed on the way.
